SOLARSHAMPS ENGINEERS & CONSULTANTS

SOLARSHAMPS ENGINEERS & CONSULTANTS

Plot No: H.I.G 60-61, Sector-1A, Parwanoo, Distt. Solan. Himachal Pradesh -173220. (INDIA)

Email: solarshamps@gmail.com

ABOUT US

SOLARSHAMPS is a progressive and quality conscious organization offering a range of solar products, safety equipments, security equipments scientific, medical, electronic equipments & Instruments, based at Parwanoo, Himachal Pradesh, Also registered with MNRE, HIMURJA & HAREDA.

OUR PRODUCTS & SERVICES

- Solar equipments
- Trainings
- Safety audits & Energy audits

WHY SOLARSHAMPS?

A personal connection with our customers is crucial to our success. When our customers purchase our products, they know they are getting value for their money, with performance, reliability and quality. Every product carries our personal guarantee and service commitment. Our team stands behind every product we sell – even years after it is installed.

OUR BUSINESS PRINCIPLES

- Quality Commitment
- Transparency
- Follow Business Ethics
- Professional Approach
- Customer satisfaction is our prime objective
- Excellent after sales service

OUR MISSION

To be a most preferable brand in the business of manufacturing and marketing of solar products, safety equipments, security equipments and providing excellent after sale service, by adopting latest technology with equal emphasis on safety, health and environment protection.

COMPLIANCE

Quality design and flawless manufacturing have been central to SOLARSHAMPS philosophy. Reliability and durability are engineered into every product. Rigorous procedures ensure accurate manufacturing and delivery to the customer. The products are designed and manufactured in conformity to ISO 9001, ISO 14001 and OHSAS 18001 certified production facilities. All of SOLARSHAMPS operations include recognized quality procedures and use feedback mechanisms that identify potential problems so they can be addressed. MNRE Approved Chanel partner

INFRASTRUCTURE

We have acquired the latest technology and state of the art machinery, currently our 3,500 square-foot facility houses Administration, Design & Engineering, and Manufacturing operations, backed by team of dedicated professionals who help the company in keeping pace with our enunciated policy of total quality management and have committed themselves to the improvement of quality. We are continuously working in pursuit of development and excellence.

MARKET SHARE

Total solar on-grid system commissioned in Himachal Pardesh in 2017-18 is 0.75 MW out of which .20 MW system installed by us 27% share in HP.

SOLARSHAMPS IS A RESOURCE GENERATOR

SAVING RESOURCES FOR NEXT GENERATION

KEY CUSTOMERS

- Asian Industries (Installed first Industrial 200 KWP Grid Connected Rooftop system of Himachal Pradesh.)
- Department of Environment, Science & Technology, Shimla 35 Kwp (First on-grid system of Shimla)
- Govt ITI Collage Shahpur (HP)20 Kwp first on-grid system of Kangra.
- Solar Feasibility Study Done for NHPC Sainj project (HP)
- SJVN Nathpa Jhakri 36 Kwp (HP)
- DK Enterprises 50 kwp Panchkula
- Biogenetic institute 5 Kwp Delhi.
- Dewcon Industries, Nalagarh 50 Kwp (HP)
- IPDS Project of HPSEBL District Solan (HP) 443 Kwp.
- IPDS Project of HPSEBL District Una (HP) 81 Kwp.

प्रदेश का पहला सोलर आधारित कारखाना बद्दी में शुरू, 280 केवी ऊर्जा का उत्पादन

गत्ता उद्योगपति अजय चौधरी ने की प्रेरणादायक पहल, बिजली की 80 फीसदी तक बचत होगी, दो करोड़ रुपए का किया निवेश

सिटी रिपोर्टर | बद्दी

काठा के एक उद्योग ने बिजली की निर्भरता से मुक्ति पाते हुए पूर्णतया: उद्योग को सोलर आधारित कर दिया है। ये प्रक्रिया हिम ऊर्जा के विभाग के तहत की गई है। इसमें बिजली बोर्ड का कनेक्शन भी रहेगा, लेकिन बिल आएगा नाममात्र क्योंकि इसके चलने से बिजली की 80 फीसदी तक बचत होगी।

गत्ता उद्योगपति अजय चौधरी के प्लांट ने मंगलवार से काम करना शुरू कर दिया। अजय का ये कदम सौर ऊर्जा के लिए विख्यात गुजरात व नरेंद्र मोदी से प्रेरित है। मंगलवार को एशियन पैकर्स उद्योग काठा ने सौर ऊर्जा से प्लांट चलाना शुरू किया। बद्दी में अब कुछ बड़े उद्योगों को उद्योगपतियों ने सौर ऊर्जा से चलाना शुरू कर दिया है। हिमाचल का ये पहला बड़ा उद्योग है जो सौर ऊर्जा से 300 किलोवाट बिजली पैदा कर उद्योग चलाएगा। एशियन ग्रुप आफ इंडस्ट्रीज के चेयरमैन अजय चौधरी ने बताया कि उन्होंने 2 करोड़ निवेश करके सौर ऊर्जा संयंत्र स्थापित किए हैं। आज से वे उद्योग की सारी मशीनें सौर ऊर्जा से चलाएंगे। उन्होंने बताया कि प्रदेश का यह पहला बड़ा उद्योग है जो कि सौर ऊर्जा से चलेगा। उन्होंने बताया कि उनका प्रतिमाह 5 लाख बिजली का बिल उद्योग का आता है जिससे उन्हें काफी हद तक निजात मिल सकेगी। उनकी पूरी कोशिश है कि वह अपने बाकी कारखानों को भी सौर ऊर्जा के माध्यम से चलाएंगे।

सौर ऊर्जा प्लांट को दिखाते कंपनी के निदेशक अजय चौधरी।

सब्सिडी या अनुदान दें

अजय चौधरी ने बताया कि केंद्र सरकार और प्रदेश सरकार को सौर ऊर्जा के संयंत्र स्थापित करने के लिए विशेष प्रोत्साहन उद्योगपतियों को देना चाहिए जिससे छोटे-से छोटा उद्योगपति इस सौर ऊर्जा प्रोजेक्टों को अपना सके। उन्होंने कहा कि इस प्रोजेक्ट में केंद्र और राज्य सरकारों को विशेष अनुदान देना चाहिए ताकि उद्योगों की बिजली पर निर्भरता कम से कम हो सके।

इस संदर्भ में एक्सईएन बिजली बोर्ड बद्दी राकेश ठाकुर ने बताया कि सरकार का हिम ऊर्जा विभाग धरेलू स्तर पर सौर ऊर्जा प्लांट लगाने पर 50 फीसदी अनुदान देता है जबकि उद्योगों के संदर्भ में ऐसी को योजना नहीं है।

हर्बल पार्क में सोलर लाइटें लगाई

बद्दी. क्यूटेक चौक और आईवीएन पार्क में बीबीएनडीए की ओर से सोलर लाइटें लगाई गईं। बीबीएनडीए ने पहले चरण में 6 लाइटें लगवाई हैं। 6 लाइटें क्यूटेक पार्क में लगेंगी। अमित सिंगला सोशल वेलफेयर सोसायटी के अध्यक्ष सुमित सिंगला की ओर से बीबीएनडीए के सीईओ आदित्य लेगी एवं ज्वाइंट सीईओ राजीव कुमार ने सहयोग के लिए आभार जताया है। क्यूटेक चौक और आईवीएन पार्क में लगी लाइटों से लोगों को सैर-सपाटे के साथ-साथ जगमगाती रोशनी का आनंद लेंगे। सुमित सिंगला ने बताया कि इससे पहले पार्क में लोगों को इस प्रकार की सुविधा नहीं मिल पा रही थी जिससे यहां आसपास का क्षेत्र अंधेरे में था। बीबीएन क्षेत्र में हुए इस विकास कार्य की लोग सराहना कर रहे हैं। सिंगला ने कहा कि क्यूटेक पार्क में वाणीचा व घास लगाई जाएगी और बैठने के लिए बैंच लगाए जाएंगे। मानसून के मौसम पर पार्क में और खुशबूदार पौधे लगाए जाएंगे। बीबीएनडीए के सीईओ आदित्य लेगी व ज्वाइंट सीईओ राजीव कुमार का भी इस कार्य में भरपूर योगदान मिल रहा है।

Shimla gets its first grid-connected solar plant

07 Apr 2018, 01:53 PM IST

Solar power plant: Capacity

Himachal Pradesh Chief Minister Jai Ram Thakur recently inaugurated the first grid-connected solar power plant in Shimla having a capacity of 35 KW, installed on the rooftop nment, Science and Technology.

OUR PROJECT CASE STUDY PRINTED IN AKSHAY URJA JUNE 2018 MAGIZINE PRINTED BY MNRE

GRID CONNECTED SOLAR ROOFTOP POWER PLANT INSTALLED IN STATE PARYAVARAN BHAWAN IN SHIMLA, HIMACHAL PRADESH

Solar panels installed in the rooftop of Paryavaran Bhawan, Shimla, Himachal Pradesh

Paryavaran Bhawan, Department of Environment, Science & Technology HP, Shimla, has commissioned first grid-connected solar rooftop power plant of Shimla city having capacity of 35 kW. The solar plant was inaugurated by the Hon'ble Chief Minister of Himachal Pradesh, Shri Jai Ram Thakur on April 6, 2018. In his address he has urged all the government and private departments of the State to adopt renewable energy technologies such as solar plants, etc., in their office premises so that contribution towards saving of energy and environment conservation can be made. All residents should also adopt solar- based energy technologies so that everybody can contribute towards energy saving which in turn would also lead to revenue saving of the state and simultaneously reduce their carbon footprint and protect the environment for future generations.

The work of supply, installation, and commissioning of grid-connected rooftop solar power plant was awarded to M/s Solarshamps Engineers & Consultants, Parwanoo, District Solan. For the 35 kW capacity power to be produced, 112 solar panels of 315 W capacity per panel have been installed in the rooftop. This plant has been installed at the cost of ₹19.23 lakh. One bi-directional meter has also been installed by HP State Electricity Board Ltd. for the functioning of solar power plant in the office premises of Department of Environment, Science & Technology which is essential for energy inflow and outflow from solar plant to main electricity grid. One Grid Tied Inverter/Power Conditioning Unit of 40 kW capacity has also been installed in the office premises.

Through this plant, solar power would be fed to main grid and therefore the consumption of electric power will be reduced. This will lead to power saving and would offset the carbon dioxide (CO_2) in the atmosphere. It has been estimated that the return on the investment made on the installation and connection of rooftop solar power plant will be made in approximately 5 years which will lead to revenue saving of the Government. As per estimation, about ₹97 lakh would be saved in next 25 years. The Ministry of New and Renewable Energy, Government of India, through HIMURJA is providing 70% financial assistance for grid connected solar rooftop power plants in the State of Himachal Pradesh. The State Government has also agreed to provide financial assistance of 10% or ₹4,000 per kW for the current financial year 2018/19. AU
